Recent projects

AppCraft Astro ↗ 

Tool to greatly simplify the process of creating and deploying web apps. Improved from the original AppCraft

with a better stack and more features.

AppCraft

No code tool to easily build web applets with full customizable reactivity.

Byju's US Math Applets

Web applets built to be used in live classes for Byju's US Math curriculum.

Byju's UNO Slides

Web app to create slides for Byjus's UNO project aimed at kids with learning disabilities. The slides also feature a 3d character which can animated by the teacher to emote and explain the content.
